

ECHIDNA

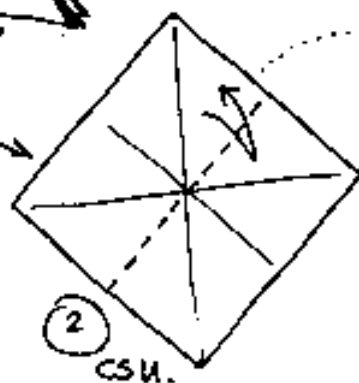

A 2
F 4-5
B 99

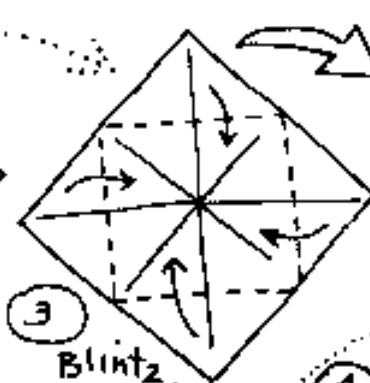

Use a 10" square paper for the mother echidna, and a 3" square for her baby, which is called a puggle.

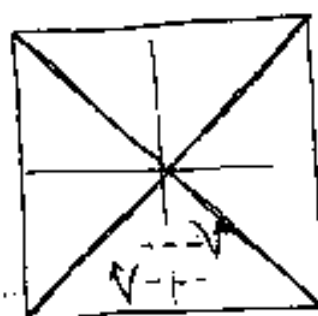

① WSLU.

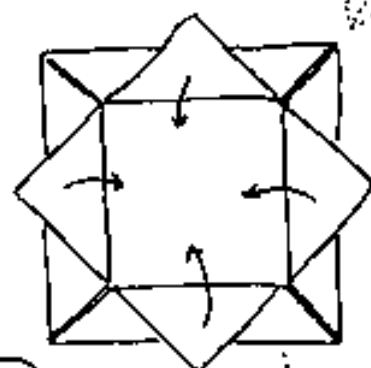

② CSU.

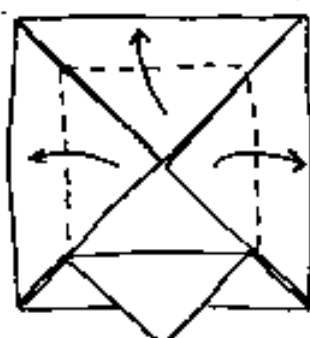

③ Blintz.

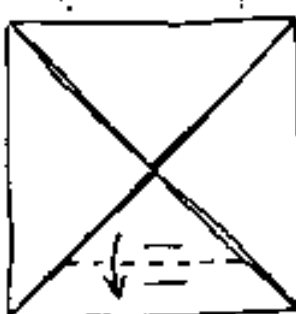

④ Pinch a flap in half, then pinch the quarter by bringing the half pinch to the folded edge.

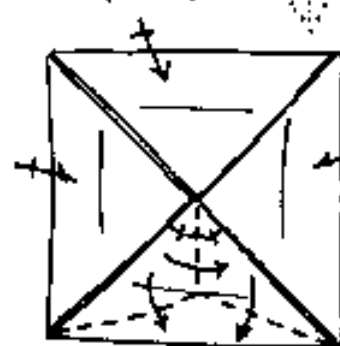

⑦ Unfold.

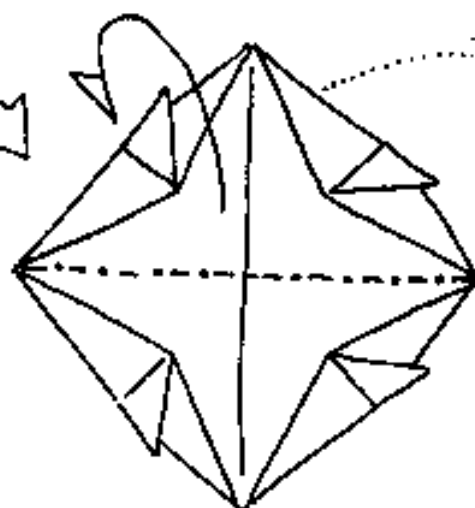

⑥ VF the other 3 flaps to match the first.

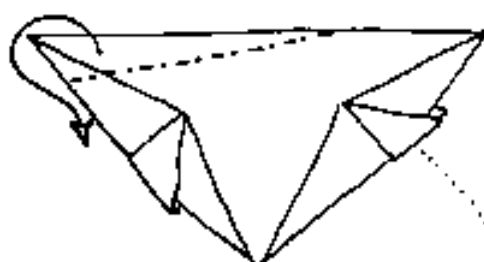

⑤ Match up the two pinches, folding halfway between them.

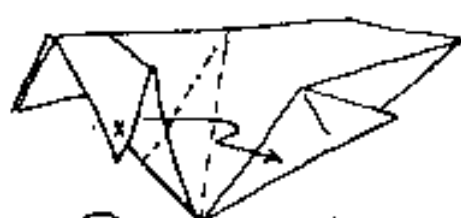

⑧ Rabbit-ear to step 5's crease (side angles not bisected). Repeat on other 3 flaps, + model.

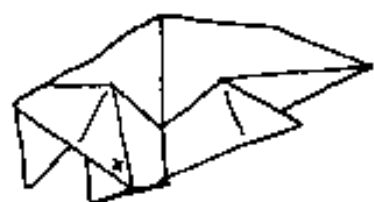

⑨ Arrange the small flaps (feet) as shown above, with the valley crease vertical.

⑩ IRF, holding inner vane to one side.

⑪ Crump, bringing foot X to edge.

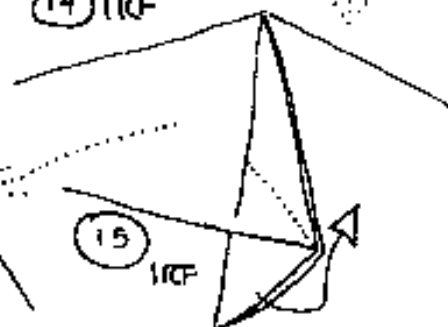

- ⑫ Form toes on flap X - follow steps 13-19. For the tiny puggle, you may wish to leave them out.

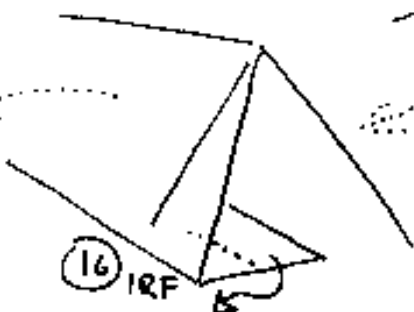

- ⑬ Greatly enlarged detail-foot flap only.

- ⑭ IRF

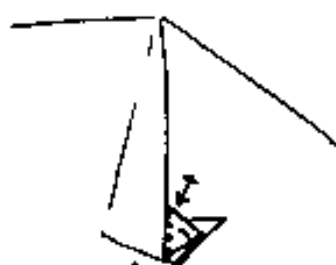

- ⑮ IRF

- ⑯ IRF

- ⑰ IRF

- ⑱ IRF near + far corners.

- ⑲ Crimp toe, pushing in. There should now be 5 toes.

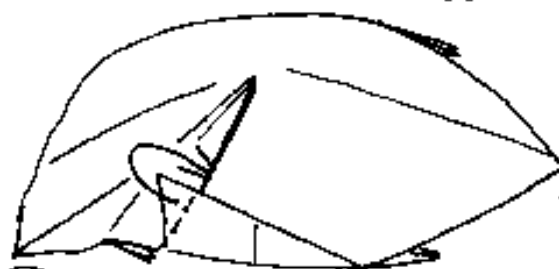

- ⑳ Repeat on other 3 small flaps. (steps 13-19)

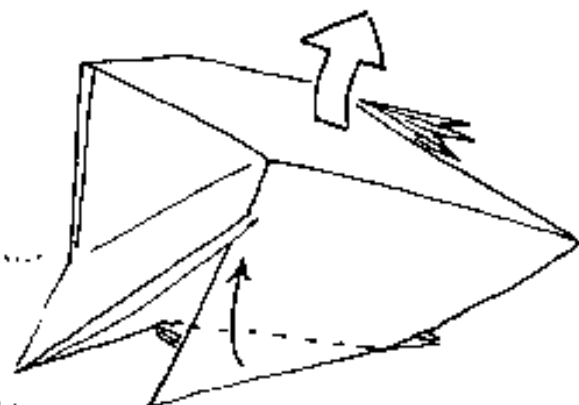

- 20a

Spread out, they look like this.

- ㉑ Tuck tip under. Flip model over + repeat steps 21 + 22.

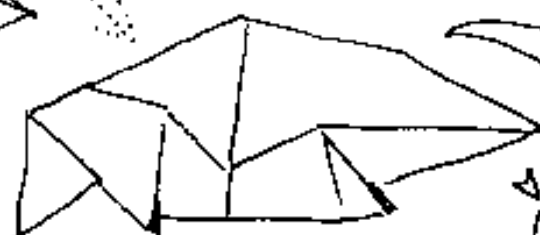

- ㉒ Lift near layer + open model - on inside, VF between feet.

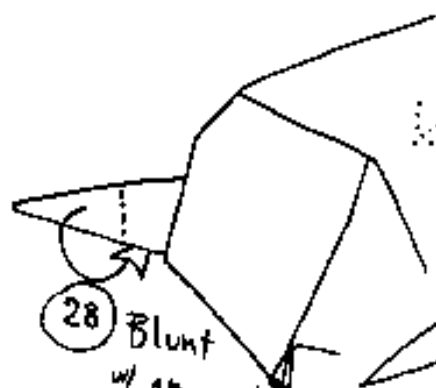

Echidna, p.3

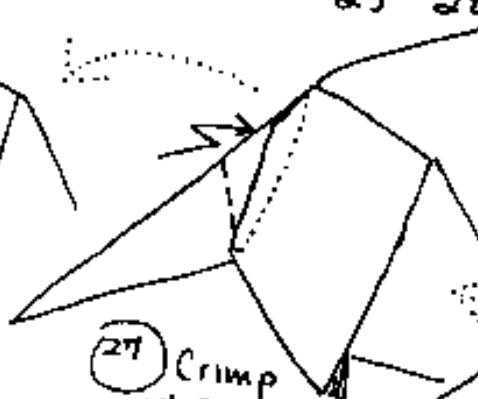

23 Close up again

24 Shape tail, steps 25-28.

25 IRF R.b.

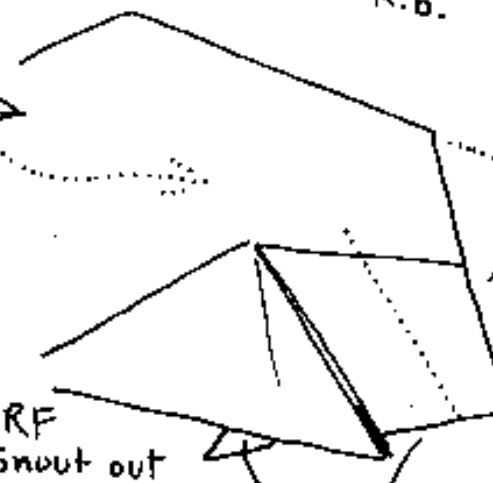

26 IRF R.b.

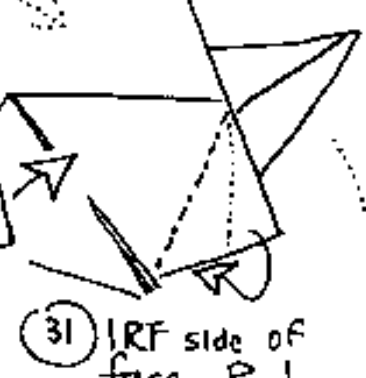

27 Crimp w/ 2 IRFs, pushing tail into body.

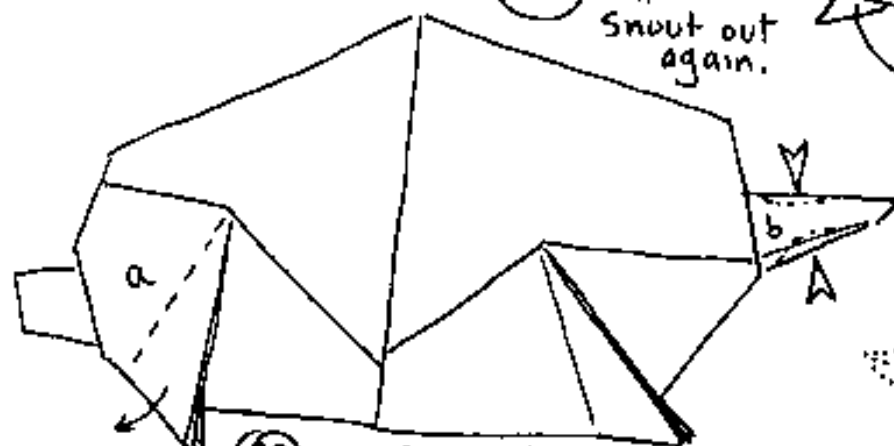

28 Blunt w/ an IRF

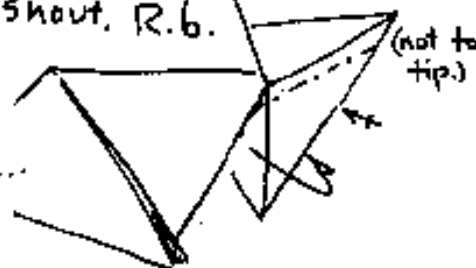

29 HEAD: IRF into model.

30 IRF snout out again.

31 IRF side of face. R.b.

32 Narrow snout, R.b.

33 a) Set echidna down w/ hind feet out to side. b) Round snout into a tube
