① White side up.

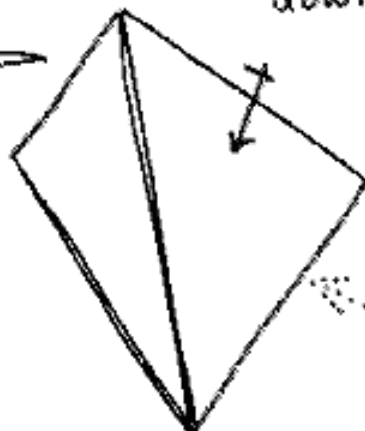

② VF corners down.

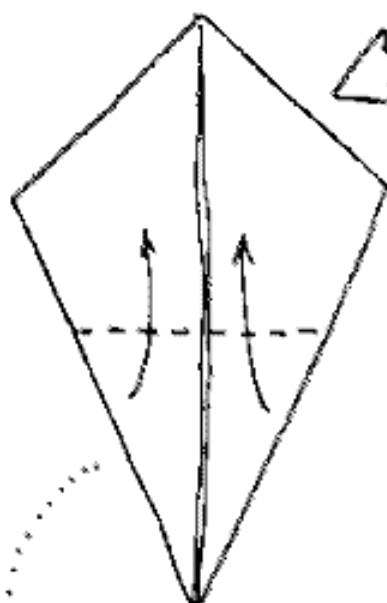

③ Unfold.

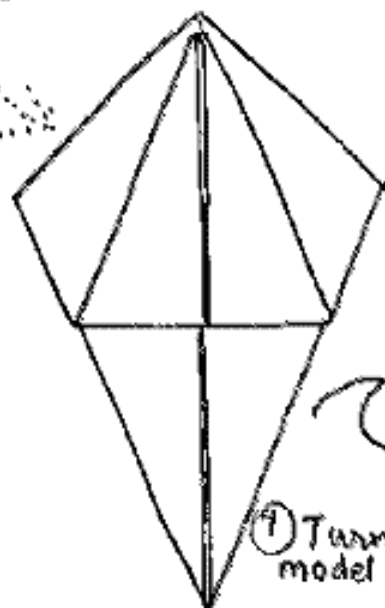

④ Standard rabbit-ear.

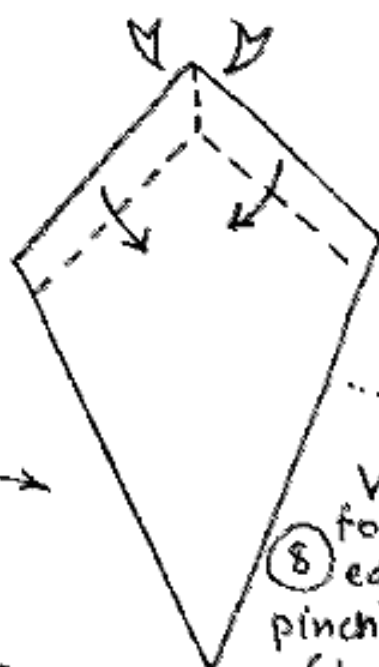

⑤ Repeat 3 & 4 on right.

⑥ VF flaps up to just below peak.

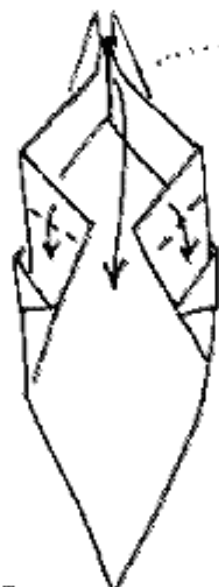

⑦ Turn model over.

⑧ Valley-fold upper edges down, pinching peak (beak).

⑨ Valley-fold sides in (all thicknesses).

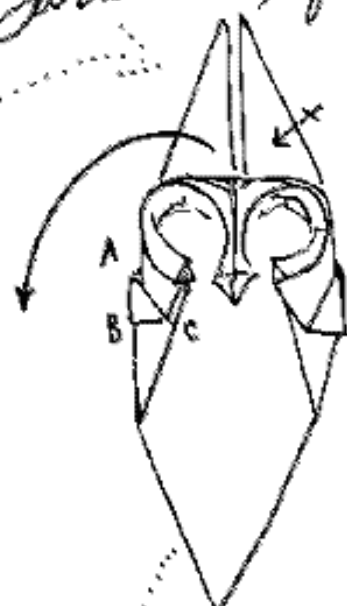

- ⑩ VF ridges down + pull beak down with it.

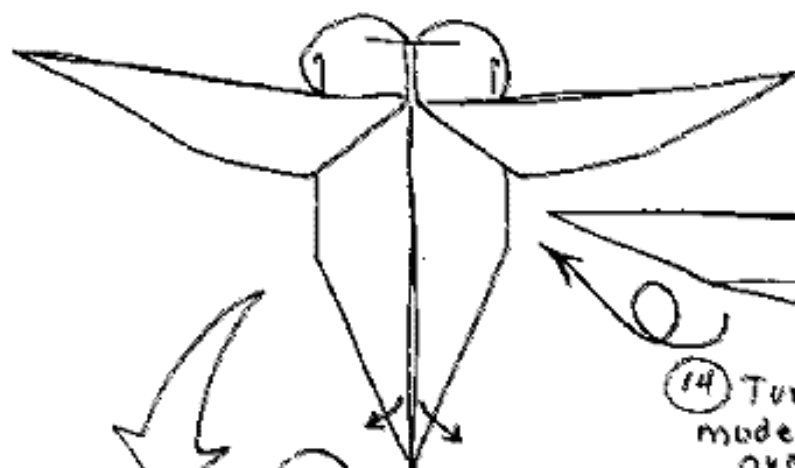

- ⑪ Round out eyes.

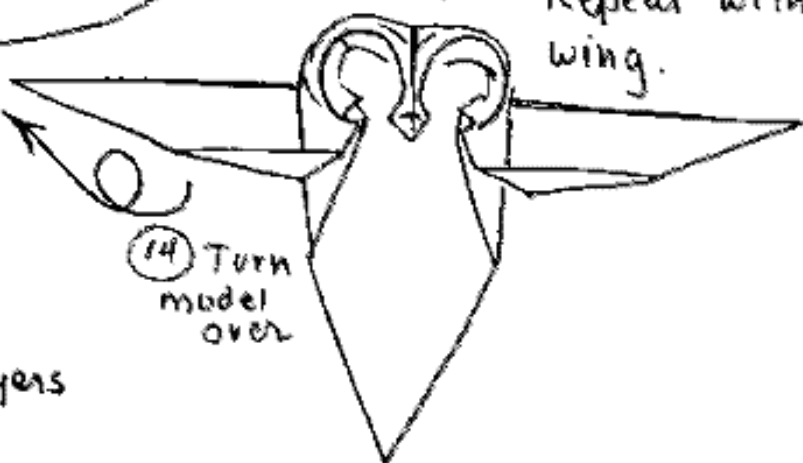

- ⑫ Flatten beak w/ a soft squish fold from underneath it.

- ⑬ Pivot left wing down to the side. Flatten, lengthening the triangle ABC. Repeat with right wing.

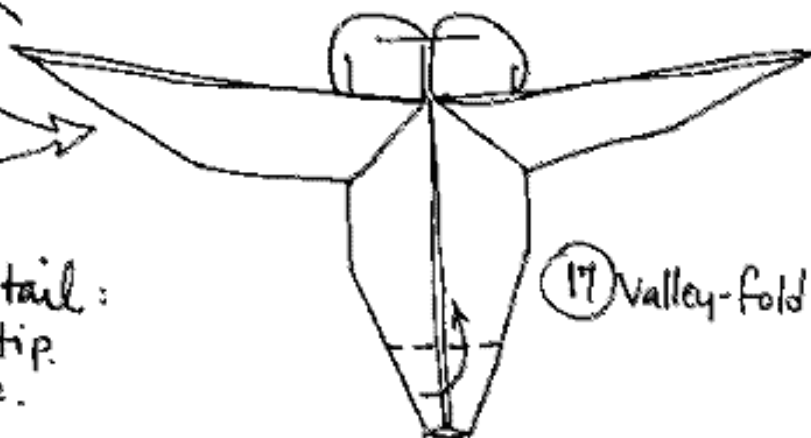

- ⑮ Open layers of tail.

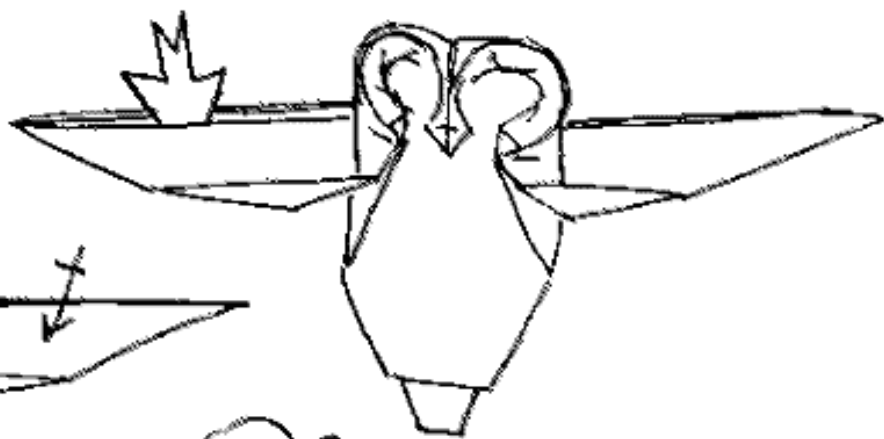

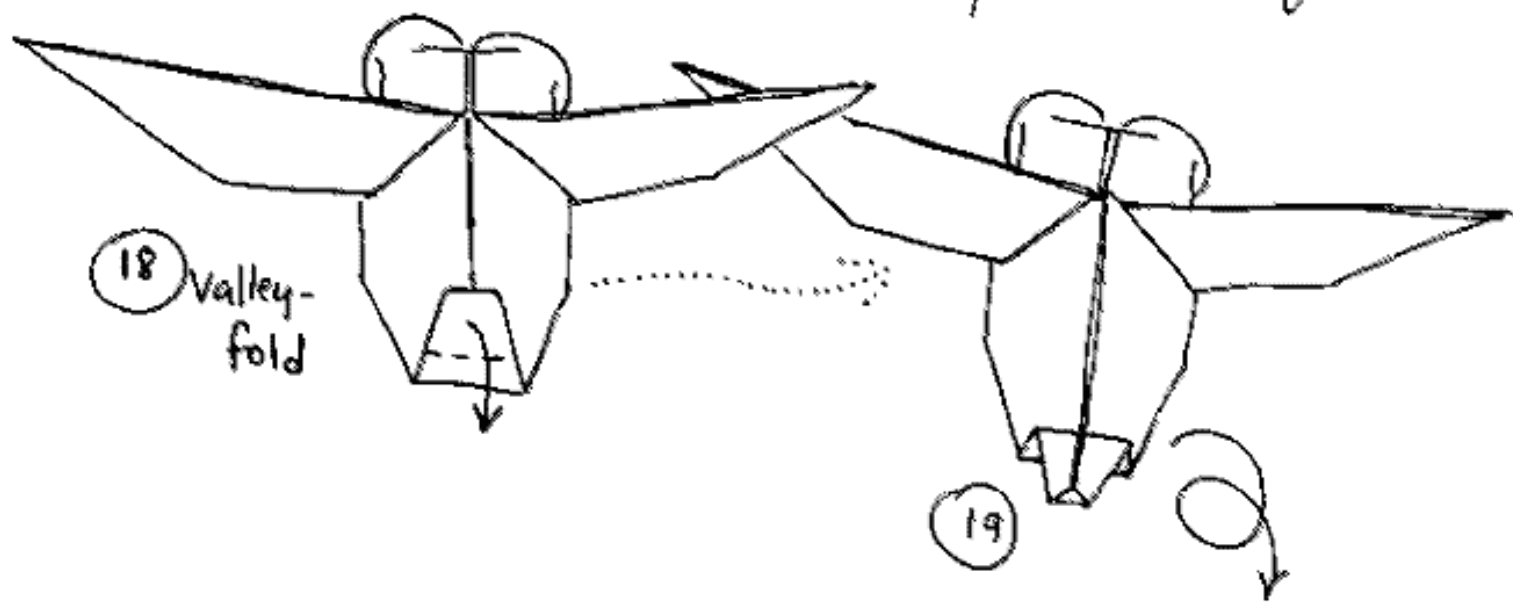

- ⑯ Enlarged detail:
a - Blunt tip.
b - Re-close.

- ⑭ Turn model over

- ⑰ Valley-fold

20 Separate the layers of the left wing.

21 In a kind of outside reverse fold, turn left wing inside-out. Repeat 20 + 21 on the right wing.
