NOTE: this model gets quite thick.

Start with a 2x1 rectangle of thin orange-yellow paper randomly stamped with stripes. A 17" x 8 1/2" piece yields a 4" tall Tigger.

7 Spread layers and fold tip over twice.

8 Crimp.

9 Inside-reverse to form chin.

10 Valley-fold near & far layers.

11 VF near and far layers.

12 Temporarily move the 4 leg flaps to the left.

13 VF

14 VF.

15 Narrow tail.

16 Return the 4 flaps to position shown in step 10.

17 Basic parts are in place. The rest is refining the shapes.

18 Return leg flaps to step 12.

19 Tuck in near layer as far as possible. Small squashes may form under chin. Repeat behind.

- 20 a) Inside-reverse;  
b) Tuck protruding corners in;  
c) Unfold rear leg flaps to right, temporarily.

- 21 a) Inside-reverse fold.  
NOTE: corner of underneath layer is bisected.

- 22 Refold leg flaps to left.

- 23 Pivot to form haunches.  
Lower edges line up.

- 24 a) Blunt all four paws with inside reverse folds.  
b) Lift and round out ears.

- 25 Pleat rear legs.

*Tigger, p. 4*

- (26) a) Radial-pleat front paws.  
b) Valley-fold tail.

- (27) a) Narrow tail.  
b) Round out butt.

- (28) a) Pull cheek out over shoulder.  
b) Turn up tip of tail.  
c) Push in top edge of front leg.

- (29) To make Tigger sit forward, spread inner thick layers apart.
