

Kayak

1

Begin with a square,
coloured side up.

2

3

Fold the corner to the crease made in
step 2. Note the fold originates at the
base of the crease made in step 1.

4

5

Fold and unfold. Note the circled
reference points.

6

Unfold everything and rotate the paper
180 degrees.

7

Repeat steps 3-6.

8

Add more creases.

9

Fold on existing creases, do not
flatten yet.

10

Squash fold.

11

Repeat steps 9-10 on the
left side.

12

Rearrange the layers on the
right so both sides interlock.

13

Fold and unfold.

Kayak

14

15

Fold and lift the flap. Do not flatten yet.

16

Continue pulling the flap to the left and flatten, allowing the folds to overlap a little.

17

Unfold back to step 15.

18

Refold steps 15-16, but starting with a mountain fold so the layers are on the inside.

19

Refold steps 15-18 on the right side.

20

This is a bit like step 18, only harder! Turn the top section inside-out so that the circled areas are inside the model.

21

Do the same to the bottom half.

22

Turn over.

23

Concertina a single layer to make the model 3-dimensional. The next view is shown from the side.

24

Make small valley and mountain folds to tidy up the sides.
