③ F-UF:

④ Crimp so AB lies on AC

⑤ F-UF along AB.

⑥ Crimp so AD lies on AB.

⑨ Inside-reverse-fold completely into model. From inside, tuck bottom corner of same flap over layer of one foot to lock model.

⑧ Inside-reverse-fold feet to left.

⑦ Outside-reverse-fold.

Moon Mouse's GREEN CHEESE #2

AFB

98

① Green foil or paper, white side up.

②

③

⑤ Unfold. Turn over.

④ Bring peak down to dot + crease.

⑥ Collapse model so AB lies along BC, and D moves behind.

⑦ Turn paper over & Flatten inner flap D where it lies.

⑧ Fold bottom edge up into model, on a straight line all around, locking in D. Note corners B and E throughout.

- ⑨ Holding BC and BA together, re-orient model so that the conjoined edge is at top, facing you.

- ⑪ Fold, bringing corner E to meet new edge G. Make $FB = CB$ in length.

- ⑫ Release flap A and tuck its lower edge into flap E's pocket. (If A is longer than E, tuck E into A's pocket.)

Back view.

Sharpen edges.
