

Simple

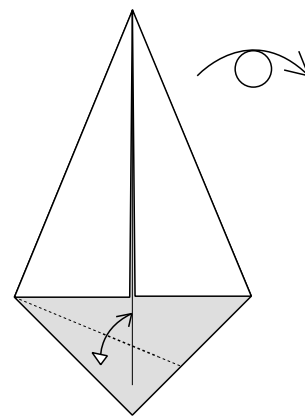

A 10" square makes a model 8" long

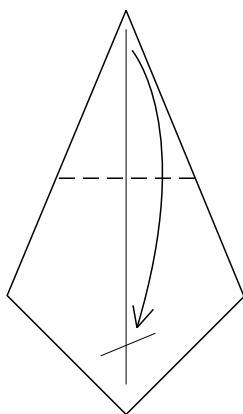

1. Precrease in half.

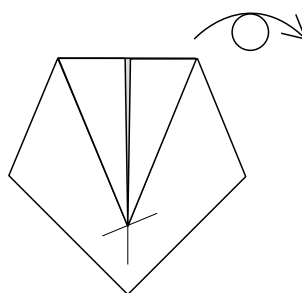

2. Valley to the center crease.

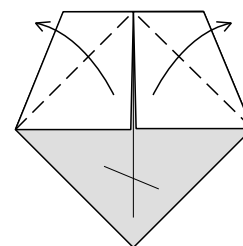

3. Precrease along angle bisector. Only form crease on the center region. Turn over.

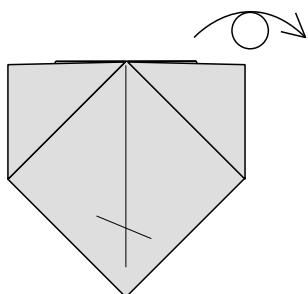

4. Valley to the intersection of creases.

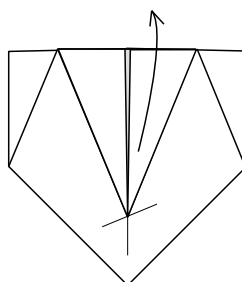

5. Turn over.

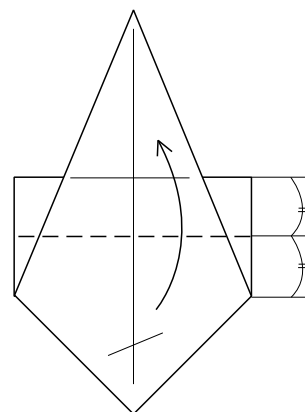

6. Valley the corners outwards as far as possible.

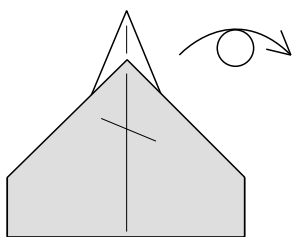

7. Turn over.

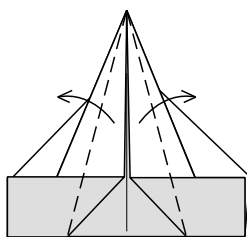

8. Raise the top flap.

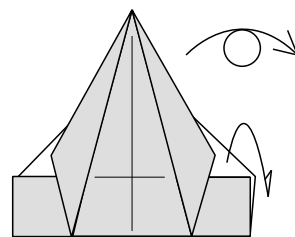

9. Fold the indicated section in half.

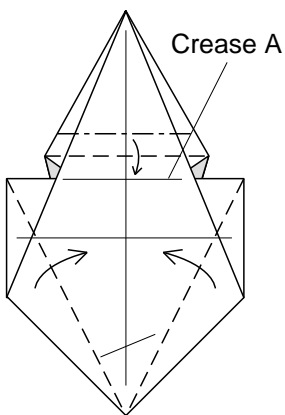

10. Turn over.

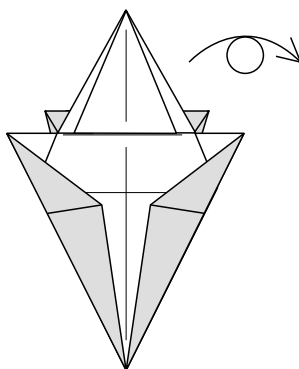

11. Valley outwards as far as possible.

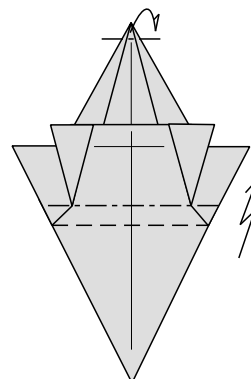

12. Swing down the back flap. Turn over.

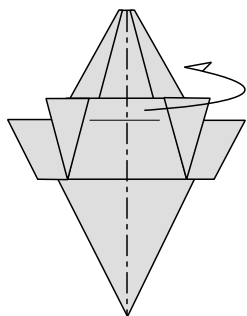

13. Pleat the top, so the mountain fold hits crease A. Valley the sides inward.

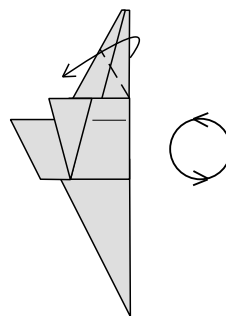

14. Turn over.

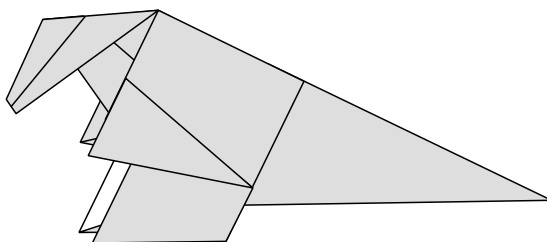

15. Pleat the bottom. Mountain fold the tip.

16. Mountain fold the model in half.

17. Valley the head to taste. Rotate the model.

18. Completed Pureland T-rex
