

Making Letter Size Like Rectangle

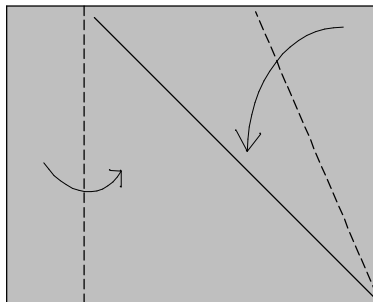

©1997 Sy Chen

The following cutting result makes rectangle with aspect ratio differing from 11/8.5 by 0.1%

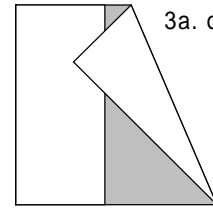

1. Place rectangle sideways

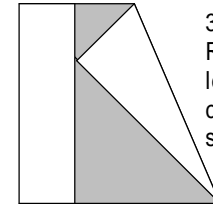

2. Three possible results in next steps

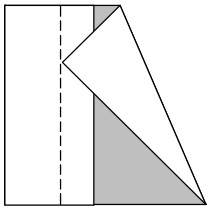

3a. overlap; go to 4a

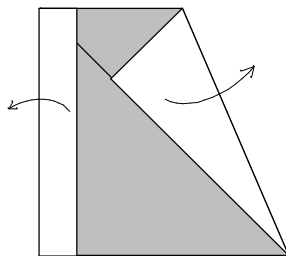

3b. Meet at ends:
Rectangle is in
letter size ratio; No
cut needed; Go to
step 10

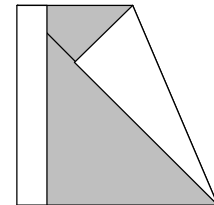

4a. Cut along the vertical line passing through the folded corner and unfolded to obtain finished rectangle; Go to 10

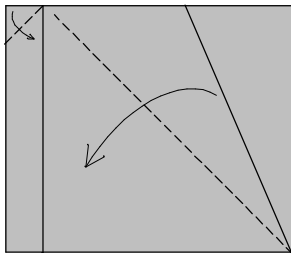

4c. Unfold; Go to step 5

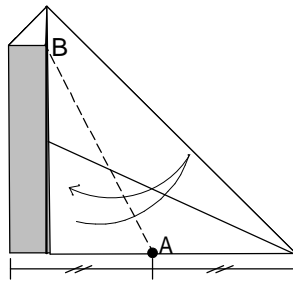

3c. Untouched; Go to 4c

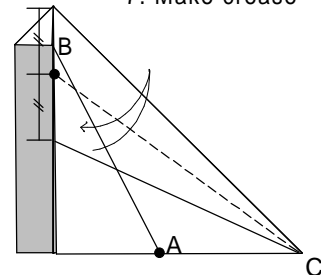

5

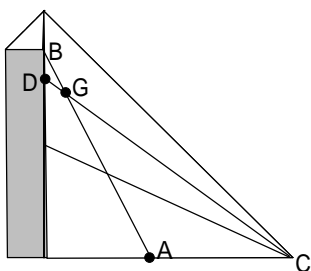

6. Make crease

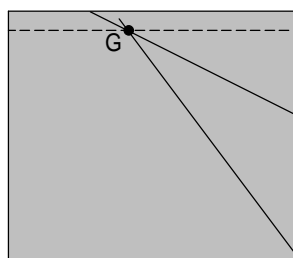

7. Make crease

8. Intersection of AB & CD determines G;
Unfold everything

9. Cut along the horizontal line passing through point G to get letter-shaped rectangle

10. Finished
